**“Be the change you
want to see in the world”
Mahatma Ghandi**

The environmental challenges facing the modern world demands that we work together for change. We all need to work together to promote sustainable communities for people to live and work in, and the corporate sector is well placed to take a leading role in this whilst benefiting its own business.

“We all enjoyed both a physically and mentally rewarding day, learning about the issues of the area and the importance of maintaining green space.”

Barclaycard, Manchester

Red Rose Forest, Greater Manchester's leading environmental regeneration initiative, offers a Green Corporate Days package that combines achieving real environmental improvements with meeting your business needs. Over the course of a day your staff will work together in a tailor made programme to make a significant improvement to a woodland area or green space, which will benefit both wildlife and local communities.

We feel our Green Corporate Days package stands out from the market as unique through being one of the only organisations to offer a day that benefits your staff development whilst improving the environment.

A breath of fresh air...

Corporate Social Responsibility (CSR)

In today's climate, CSR is now a key priority for businesses. Our bespoke environmental and community oriented Green Corporate Days packages are an ideal solution to your CSR objectives.

Team Building

An opportunity for staff to develop new skills, encourage team morale and to experience a day of practical, hands-on, fulfilling tasks in an outdoor environment.

Environment

In today's changing climate, the quality and management of urban green space is becoming increasingly important. The tasks undertaken on a Green Corporate Day will have a tangible, positive impact on wildlife, the local community and the physical environment.

Our skilled staff will talk you through the options available for your Green Corporate Day to create a programme of site based activities that suit the needs of your company. The activities offered may include tree planting, woodland management or other site improvement tasks, and will vary to match your requirements, the seasons and the needs of the woodland or green space.

Once you have decided upon the option that is suitable for you we will provide a comprehensive pack that contains all the information that you and your staff will need to prepare for the day.

Red Rose Forest will provide refreshments for your staff and can order lunch for the group if required.

Whether you are looking for a day away from the office, team building or the chance to 'give something back', we strive to offer the very highest standard of service, in a relaxed and entertaining atmosphere. So if you are looking for a fun and creative event that builds staff morale, meets the aims of your corporate social responsibility agenda and enables you to get involved with environmental regeneration that makes a real difference, then call Red Rose Forest today.

Due to the customised nature of Green Corporate Day packages the price of each event will vary. Your support will enable Red Rose Forest to deliver its long term environmental regeneration plan.

For booking options, prices and further information on the practical tasks and sites available please contact Red Rose Forest **0161 872 1660** or **greencorporatedays@redroseforest.co.uk**

Red Rose Forest is an environmental regeneration initiative, one of 12 Community Forests across England. It is a partnership of Natural England, the Forestry Commission, the Boroughs of Bolton, Bury, Trafford and Wigan and the Cities of Manchester and Salford. Over 40 years, we are planting more than 25 million trees across 292 square miles of the area, with the help of local communities, businesses and partners, as the framework for a programme of regeneration and renewal that will make Greater Manchester a greener and healthier place to live.

Community Forests Northwest (CFNW) is a charity that supports the Red Rose Forest and Pennine Edge Forest in Greater Manchester and The Mersey Forest in Merseyside and North Cheshire. CFNW enables the three Forests to continue their vital work, increasing tree cover and involving local communities and businesses in the creation of attractive environments in which they can thrive. This project is being run by CFNW on behalf of Red Rose Forest. CFNW is a registered Charity (Reg No 1072706).
